50th “Ulaanbaatar Partnership International Food Industry Trade Fair”

INVITATION LETTER

The Mongolian National Chamber of Commerce and Industry has proudly organized the “Ulaanbaatar Partnership” International Trade Fair annually since 1975. This year marks the 50th edition of this distinguished exhibition, which is co-organized with the Ministry of Food, Agriculture and Light Industry, the Office of the Governor of Ulaanbaatar City.

In celebration of this important milestone, this exhibition previously held with focus on general trade and cooperation, has been restructured and upgraded in line with Mongolia’s food sector policies, food safety priorities, export objectives, and current international industry trends. Accordingly, the event will be held under the title “Ulaanbaatar Partnership – International Food Industry Trade Fair,” as a specialized international professional exhibition dedicated to the food industry. The fair will take place from 10 to 13 September 2026 at ASA Arena, Ulaanbaatar, Mongolia.

The exhibition serves as the largest platform in Mongolia for international food manufacturers, investors, exporters and importers to explore the Mongolian food market and its opportunities in export, import and investment. It also provides participants with the opportunities to establish direct business relations with domestic producers, introduce their products to the Mongolian market, and initiate practical cooperation.

The event regularly attracts exhibitors from more than 20 countries. This year, over 150 domestic enterprises, including many of Mongolia’s leading food industry companies, are expected to participate.

Within the framework of the “Ulaanbaatar Partnership – International Food Industry Trade Fair”, a series of conferences and panel discussions will be organized to cover Mongolia’s food sector policies, export and import regulations, international industry trends, and cooperation opportunities. B2B meetings will also be organized to facilitate direct business connections and partnerships. Bringing together the public and private sector representatives along with international partners, the exhibition represents the most comprehensive event in Mongolia’s food industry, providing an integrated platform for collaboration, networking, and market engagement.

We warmly invite food industry companies, professionals, and trade promotion organizations to join this milestone event and connect with the rapidly growing Mongolian food market.
